

THIS IS OUR BRETT WARD HOME

Brett Ward completed our home in December 2008.

Undertaking the building of a home is an enormous task and we wanted the right builder to build our home. Right from the word go Brett gave us a feeling of confidence and calmness.

Brett referred us to Surez Drafting and accompanied us to the initial planning and design process of our home. When the plans were completed they were exactly what we wanted.

During construction Brett was always available to discuss any concerns we may have had. He helped and supported us in getting the cheapest quotes, the right trades and products.

Nothing was ever too difficult for Brett. If it were possible to change it, get it, find it or fix it Brett made it happen. Even on one occasion when we changed our

minds about a window size. Brett reassured us that it could be fixed, and encouraged us to make the change.

All of Brett's tradies were excellent, even if on occasion there were crossed swords about issues, choices or time frames, Brett was always there to sort it out.

Towards the end of building the landscaper we had chosen did not work out. As completion time for building was close, we contacted Brett and asked him if he could help us. He came to our rescue, completed all the paving, footpaths and retaining around our pool and house. He also recommended an excellent landscaper to complete the planting, edging and grassing of our gardens. Not only was this a life saver but

his recommendation saved us a lot of money.

Finally the long awaited day came and we moved into our beautiful home 5 days before Christmas 2008. Brett presented us with a surprise Christmas hamper.

After we moved in, there were a couple of little issues which needed following up. Brett was always approachable, and quick to respond, making sure that any repairs were undertaken.

Brett Ward is not only an excellent builder, but he has an easy going, flexible personality.

In closing thank you Brett & Kirsty for ensuring our building experience was such a pleasant one and thank you for our beautiful home.

If we were to build another home, we would without doubt choose Brett Ward
